Nearly all the cotton has been picked from the fields. Some of our oldest farmers say they have never seen a more favorable season for picking the fleecy staple than the present one.

Master A. C. Milford, a 14-year-old son of Mr. C. S. Milford, of Fork township, recently picked 404 pounds of cotton in one day. He worked from 6 o clock in the morning to 6 in the evening, stopping one hour for dinner.

The cotton crop is said to be turning out much better than was anticipated a month ago. If the farmers could only realize ten cents per pound for all of it, we believe the greater majority of them would get out of debt.

Don't bring your cotton to Anderson or Belton on the day of election. The business houses in both places will be closed all day. The merchants and clerks will devote themselves to the work of the election. Every Democrat in the County should follow their worthy axample. The gin house, together with about thirty five bales of cotton, cotton seed, &c., of Mr. John Finley, in Hall township, was destroyed by fire one night last week. The fire is supposed to have been caused by a spark from the engine. The loss is considerable, as there was no insurance.

We are requested to give notice that the Anderson M. E. Church, colored, will dedicate their new house of worship on the fifth Sunday in November. A Physician's Transmirer. I was called to see Mr. John Pearson, who was confined to his bed with what appeared to be consumption of the worst form. As all of his family had died with that dread disease (except his half brother), his death was regarded as certain and soon. A fler exhausting all the remedies, I firally, as a last resort, sent for a bottle of Brewer's Lung Restorer, and it acted like magic. He continued the use of it for some time and has been fully restored to health. So far as I could discover, he had consumption, and Brewer's Lung Restorer saved his life.

Nose Eaten Off.

A young man named John Naves, living near here, had an eating cancer on his face, which had eaten away his nose, part of his cheek, and extended up nearly to his eye. It was one of the most angry eating sores that I had ever seen. His throat finally became involved to such an extent that he could only swallow liquid food. After using all the remedles without checking the ravages of the eating cancer, his general health was broken down, he was confined to his bed, and thought it to be only a question of time about his death from the cancer. I put him on Swift's Specific as a last resort, and he began to improve with the first dose. His general health improved at once, and rapidly; his throat got well; the ravages of the cancer were soon stopped; it began to heal around the edges; and after a few months treatment with S. S. S. he has gotten entirely well. His face is all healed over with new flesh, and his general health is excellent. His recovery is wonderful. THE FAMOUS

"J. I. C., the celebrated trotting horse, (named after his owner J. 1. Case, Esq.,) was recently entered at Prospect Park, Brooklyn, to lower his own record of 2.10, so as to beat "Maud S," Vanderbilt's great mare, the fastest animal on record, and whose time was 2.00?. The excitement was intense, 6,000 people having assembled to witness the contest, every one being eager and expectantly looking for the favorite to appear. At about 3 o'clock p. m, "J. I. C.," amid tremendous applause, came down the track, passing the Grand Stand of the Judges, throwing first one ear and then the other forward, as if in recognition of the cheering of the crowd, then passing once around the race course, just to get warmed up and prepare himself for the race, the excitement running higher every minute, until "He is off! the excitement running higher every minute, until "He is off! He is off!" dehoed through the crowd. And sure enough, he was off! With rapid strides he moved on, on, increasing his speed at every step, fairly flying through the air, as if by magic, passing around the curves like a whirlwind; then coming in plain view of the spectators, everybody on tip-toe, and the excitement of the people was at fever heat to get a glimpae of the beautiful black steed as he dashed along. Passing by the Grand Stand he slacked up, and after returning in front of the Judges' Stand, in a few moments the Board announced the record at 2.187, at the second trial at 2.14, and the third time at 2.121.

Now, ladies and gentlemen, we want it understood that we are always in the race for giving low prices, and competing in our lires legitimately with ANYBODY, and we propose to lower our record. We hang out the board:
